MHOA Fall 2021 Newsletter

Message from the President

MHOA as an organization has never been so valuable to support local health departments and staff through this very difficult pandemic response. MHOA has worked to advocate for local health with state and elected officials for funding, to program and policy collaboration. The MHOA executive committee and staff continue to position the organization to contribute to the opportunities presented with new funding and political support. There is an opportunity to bolster local public health across the Commonwealth to better meet the needs of our communities and strive to improve public health.

As part of MHOA's work to support local health, we are excited to be able to host our annual conference and rejuvenate our members to continue to conquer COVID-19 and fight for the public's health.

Hope to see you there.

-Sigalle Reiss, President

MHOA-NACCHO Collaboration

MHOA has partnered with the National Association of County Health Officials (NACCHO), “the only organization dedicated to serving every local health department in the nation” to provide all Massachusetts local health departments with free NACCHO premium membership.

MHOA is collaborating with NACCHO to ensure all local health departments in Massachusetts are active NACCHO members in 2022. NACCHO helps over 13,000 individual members serving in about 1500 local health departments and is a leading organization in providing professional resources and programs, seeking health equity, and supporting efficacious local public health practices and systems.

As a NACCHO Premium member in 2022, all Massachusetts health departments will have access to an integrated data hub where they can discover, analyze, and publish data. Health Departments will also have a personalized landing page with data on 50 health indicators and will have full access to NACCHO member benefits and NACCHO Premium benefits as outlined below.

NACCHO Membership and Premium Benefits

1. Newsletter subscriptions and publications
2. Recognition opportunities through the annual awards program
3. Leadership events through Workgroups, Committees, and the Board of Directors
4. Networking and discussion sessions through the Virtual Communities platform
5. Live Data: An interactive studio with the ability to create dynamic charts and export them as images or embed them with your webpages
6. 2019 Profile Data: Access to the 2019 National Profile of Local Health Departments Survey data
7. Upcoming Survey Data: Results from future NACCHO research projects (e.g., Forces of Change)

The 2021 MHOA 54th annual educational conference will be at the Sea Crest Beach Hotel in Falmouth, Massachusetts on Wednesday, October 20-Thursaday October 21, 2021.

Highlights of the MHOA 2021 Conference include:

- **Keynote speaker José Montero, MD, deputy director of the CDC for State, Tribal, Local and Territorial Support.**
- **Margaret R. Cooke, Acting Commissioner of the Massachusetts Department of Public Health**
- **Martin Suuberg, Commissioner of the Massachusetts Department of Environmental Protection**
- Body art training describing rules and regulations for body art establishments and practitioners in Massachusetts.
- Interactive recreational camp training covering rules and regulations for recreational programs.

The three educational tracks for the conference are food, public health management, and wastewater.

- The food track will feature presentations including legal enforcement, an update on sanitizers, cultural awareness and humility, fostering partnerships with academia, and inspection reports.

MHOA Topic Spotlight

Blog post written by Yashashree Marne

New to Public Health in Massachusetts?

*The Guide identifies
topic areas and lists
resources that local
public health
officials can use to
aid them in their
journeys.*

*Learn about the
Orientation and
Resource guide
for Local Public
Health Officials
in Massachusetts*

The MHOA, along with several associated partners, has developed an “Orientation and Resource Guide for Local Public Health Officials in Massachusetts”. The Guide provides a comprehensive set of current resources about a range of topic areas in local public health in Massachusetts.

Check it out if you haven't already!
