

# DPH Local Health Internship Program

Build skills. Make an impact.  
Strengthen communities.

## About Us

For over 20 years, the DPH Division of Epidemiology has offered the Local Health Internship Program, connecting students with local health departments across Massachusetts and DPH. Each summer, interns gain real-world public health experience while supporting communities and improving health outcomes.

## What is Local Health in Massachusetts?

- Community Health Needs Assessments
- Environmental Health
- Substance Use Disorder Prevention & Recovery
- Health Communication
- Epidemiology & Data Analysis
- Health Policy & Research
- Nutrition & Food Safety
- Quality Improvement
- Engaging Diverse Populations

## Why Apply?

- Gain practical experience in local public health
- Build professional connections statewide
- Receive mentorship and guidance from experienced public health professionals
- Contribute to the health and resilience of MA communities
