

Request for Proposals
26120 - Public Health Shared Services Health Inspector Consultant

The City of Gloucester and Town of Manchester-by-the-Sea participate in a Shared Services Agreement, the Cape Ann Public Health Alliance (CAPHA), under the Public Health Excellence (PHE) Grant.

CAPHA is seeking proposals from qualified vendors for a Public Health Shared Services health inspection consultant. Preference will be given to inspectors with demonstrated expertise in food inspections, as well as the ability to perform additional public health inspections across a variety of topic areas (e.g. Title 5, Housing, Nuisance, Camps, Pools, etc.). Respondents without food inspection experience are still encouraged to apply if they possess relevant qualifications and experience in other public health inspection areas.
