- Stay connected
- Q&A

Metrik: a year of progress

Procurement milestones

Throughout the year, the team has:

Built integrations

Built MAVEN and eLX integrations to support foodborne illness follow-up and credential records.

Engaged LPH

Regularly met with the LPH Advisory Team and hosted 51 office hours.

Advanced dashboards

Strengthened the data foundation for public dashboards and delivered Injury Prevention content.

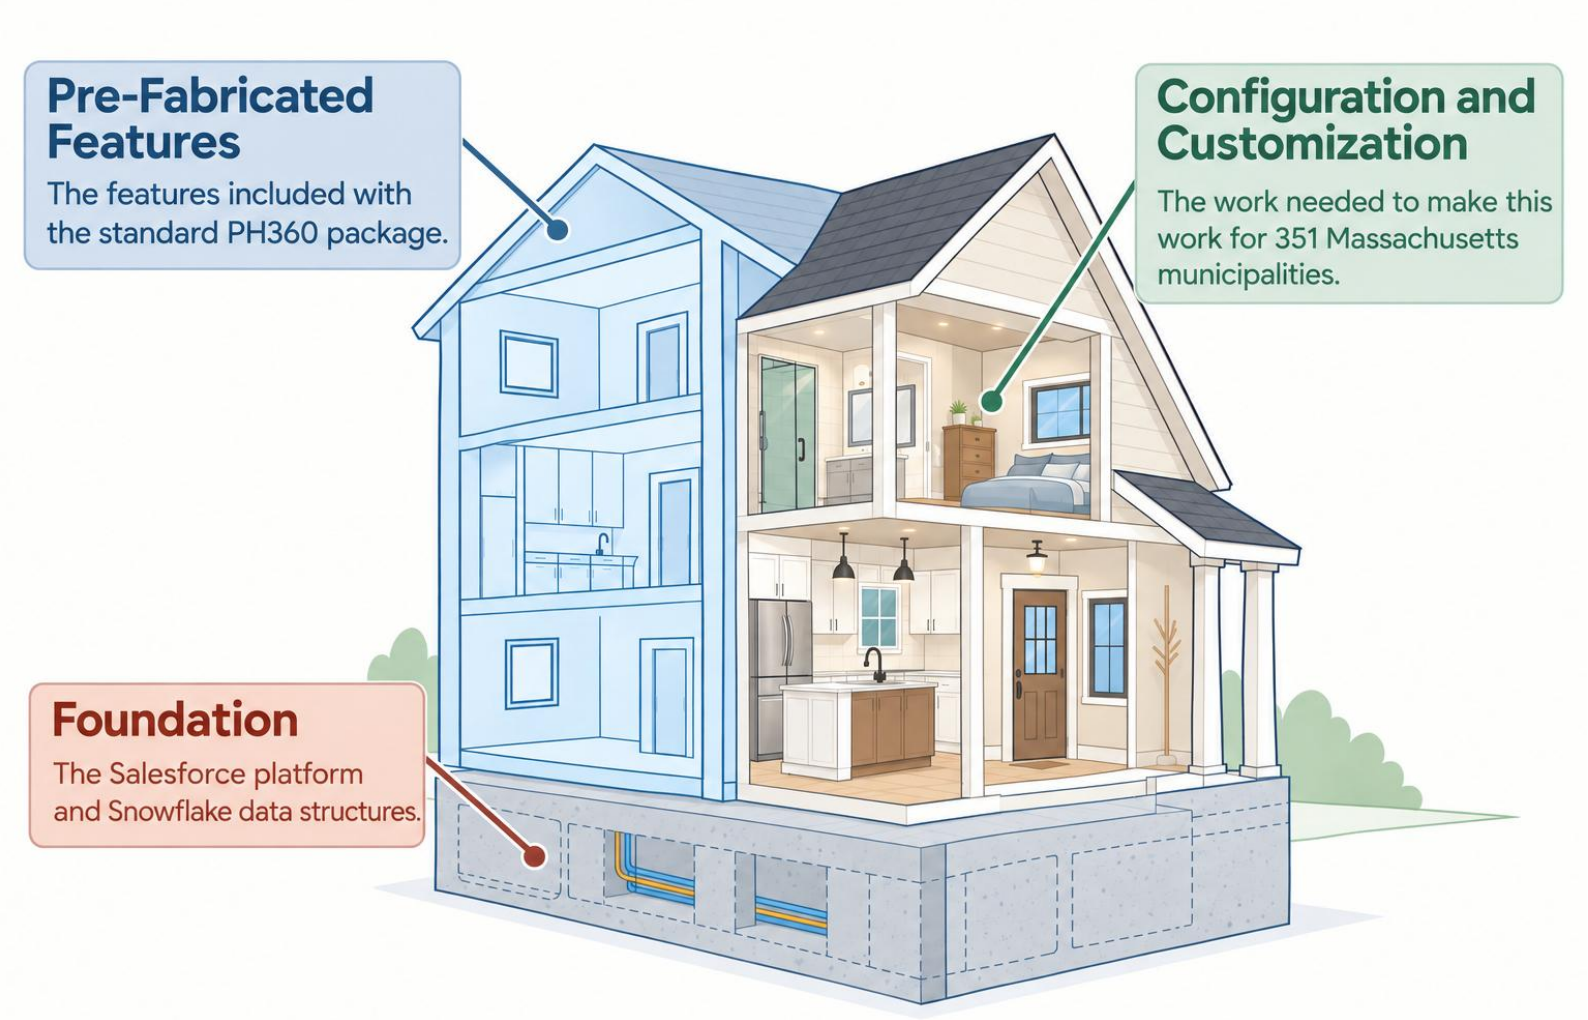

Developed model documents

Drafted 41 standardized, adaptable documents for food, housing, tobacco, pools, and recreational camps.

Gathered architecture requirements

Identified needs for user access, cross-community sharing, reporting, and address validation.

What's next

Pre-Fabricated Features
The features included with the standard PH360 package.
Configuration and Customization
The work needed to make this work for 351 Massachusetts municipalities.
Foundation
The Salesforce platform and Snowflake data structures.

Stay connected

- **At MHOA:**
  - Metrik Lounge
  - Demos during Thursday 2:00 to 2:20 pm break

- **After MHOA:**
